P R E F A C E

THIS Report has been compiled entirely by Mr. Inayat Husain, B. A., Assistant Financial Secretary, under my supervision to which I was able to give only such time as I could spare from other pressing work.

A separate publication is in course of preparation by the Special officer in charge of revision of the Hyderabad Gazetteer, which will be issued later as a companion volume to this Report. It will contain “Red Letter” Chapters, revised up to date, with fuller information than usual on (1) Physical Features (2) Historical Summary (3) Form of Administration (4) Land Tenures (5) Civil Divisions and (6) Details of the last Census (1921).

HYDAR NAWAZ JUNG,
Finance Member.

GENERAL SUMMARY

The most important event of the year was the Visit to this State of His Royal Highness the Prince of Wales, K. G. M. C., who arrived in Hyderabad on the morning of 25th January 1922 and left on the evening of 28th Idem. The Visit was an unqualified success.

During the year under report, Sir Ali Imam, K. C. S. I., (Nawab Moid-ul-Mulk Bahadur) having resigned the Presidency of the Executive Council, His Exalted Highness was pleased to appoint Nawab Sir Faridoon-ul-Mulk Bahadur, K. C. I. E., C. S. I., C. B. E., Extraordinary Member of the Council, as officiating President. Raja Fateh Nawazwant Bahadur succeeded Mr. Abdulla Yusuf Ali, I.C.S., (Retired) as Revenue Member and the latter succeeded Nawab Akil Jung Bahadur as Member in charge of the Department of Industries and Commerce. Nawab Vali-ud-Dowlah Bahadur, Nawab Lutf-ud-Dowlah Bahadur, Nawab Tilawat Jung Bahadur, Nawab Nizamat Jung Bahadur, and Mr. A. Hydari continued in charge respectively of the Judicial, Military, Public Works, Political and Finance portfolios.

Among the reforms which were introduced during the year the following were the more important:—

(i) In the previous year, His Exalted Highness the Nizam was pleased to sanction the separation of Judicial from Executive functions. During the year under report, a scheme for giving effect to it was prepared and submitted to His Exalted Highness who sanctioned it in *Farman* dated 29th Shaban 1339 H. (24th Khurdad 1331 F.) when it was brought into operation. It has resulted in a decrease of 92 Courts, for whilst under the old system there were 264 Courts (including Revenue Courts) exercising Judicial powers, under the new system there are only 172 Courts. As regards the working of the scheme, the Chief Justice remarks: "Thanks to the co-operation of the high officials of the Revenue Department and to the good sense displayed by our Judiciary as a whole, I can this day say with confidence that the scheme has succeeded beyond my expectations. It has already worked for an appreciable period and the most critical stage of trial has passed away. Every day the prospects of success are brighter. In the course of my tours I probed the public mind as well. I believe that I echo the sentiment of the public mind at large when I say that they are happier under the new system and that the Government has secured more confidence in the public mind—an asset the value of which can never be too much exaggerated." He considers, however, that in future redistribution of territorial jurisdiction a re-adjustment of present posts may be found to be necessary.

(ii) Primary Education was made free in accordance with His Exalted Highness' gracious commands conveyed in *Farman* dated the 20th Rajjab 1340 H. (16th Ardibehisht 1331 F.).

(iii) Three important measures in financial administration were carried out. One was the proper classification of the heads of receipts and disbursements in such a way as to distinguish extraordinary from ordinary items and capital from service items; another was the ear-marking of the different funded investments under separate reserves according to the sources from which or the objects for which they have been constituted. The third and the most important was the departmentalization of the finances under which each department of Government is given a grant for

three years and a large measure of autonomy which the grant allotted to it allowed, so that it might be able to carry out whatever measures of reforms it might wish to institute within that grant and if it happened to have any proposals for Capital Expenditure it must provide within its grant for the amount of interest by which the earnings of the project fall short of the interest charges incurred by the State in financing it. Each department would thus know what the minimum grant was which it could count upon for a number of years and prepare its programme accordingly. It would have an incentive in making the most economical use of its grant and would, on the other hand, be precluded, unless there was any surplus actually in the coffers of the State, from launching into any scheme that would ultimately be beyond the funds allotted to it. This scheme was graciously sanctioned by His Exalted Highness in *Farman* dated 24th Moharram 1340 H. (22nd Aban 1330 F.). Detailed rules on the subject were issued, and the Budget for the year 1332 F. was framed with due regard to these rules.

2. After a period of continuous draught and the severe famine of 1330 F. the year 1331 F. was, in many respects, a fortunate and prosperous year as it received a normal rainfall (32·11 inches) while the rainfall in the three preceding years *viz.*, 1328, 1329 and 1330 F. was 23·68, 28·51, and 15·27 inches respectively. During 1331 F., the monsoon set in at right time and the weather continued to be favourable up to the 1st week of August. From the middle of September there was very little rain. Copious rain fell afterwards throughout the Dominions improving the condition of crops a great deal. In Telingana both the *Abi* and *Tabi* crops were unsatisfactory while in Mahratwari the *Kharif* crop was good and the *Rabi* crop had failed in some districts and in other districts the conditions were quite reversed. On the whole, the outturn of crop was not disappointing, being 8–12 annas in the rupee. The net increase in the value of trade of the Dominions was 555 lakhs which resulted in the increase of Customs Revenue by 55·32 lakhs of which 24·06 lakhs were on account of cotton. There was less crime in the Dominions as compared with the previous year. The Department of Civil Supplies which was established in Amardad 1327 F. to sell grain at cheap rates during the Famine was abolished during the second quarter of the year 1331 F.

3. Excluding revenue from attached Jagirs and lands, the total collection under all heads of Land Revenue amounted to Rs. 3,01,85,601 as against Rs. 2,06,51,884 in the previous year. Remissions on account of bad season amounted to Rs. 42,66,590 against Rs. 86,37,959 in the preceding year. The percentage of collection of ryotwari Land Revenue to the net demand was 96·37 against 85·41 in the previous year. The total amount of ryotwari revenue outstanding at the close of the year was Rs. 47,49,251 against Rs. 58,00,072 at the end of 1330 F. The arrears of Land Revenue other than ryotwari at the close of 1331 F. was Rs. 9,04,729 against Rs. 9,42,978 at the end of the preceding year.

4. Original Survey operations were conducted in 33 villages of the Hyderabad Division and 310 villages of the Warangal Division. The total area surveyed measured 6,42,706 acres. Original classification work was carried out in 34 villages of the Hyderabad Division and 326 villages of the Warangal Division. Revision work was undertaken in 784 villages of the Hyderabad Division and 26 villages of the Warangal Division. The total area revised measured 15,65,255 acres. Revised rates were introduced in 858 villages of the Hyderabad Division and one village of the Warangal Division. The increase in assessment amounted to Rs. 3,14,725.

5. During the year under report inams of the annual value of Rs. 25,987 and Rs. 10,754 were confirmed and resumed respectively.

6. The gross Excise revenue was Rs. 1,59,88,184 as against Rs. 1,47,57,856 in the previous year. Deducting compensation to Jagirdars, etc., the net Excise revenue was Rs. 1,40,71,588 against Rs. 1,29,67,102 in 1330 F. The net revenue on account of country *spirits*, *sendhi* and *gulumohwa* flowers was Rs. 1,32,07,194 against Rs. 1,22,65,213 in 1330 F. The net opium revenue amounted to Rs. 6,40,656 against Rs. 5,08,002 in the previous year. The net income from *ganja* and *bhang* was Rs. 2,23,738 against Rs. 1,93,887. Besides the ordinary Excise revenue there was an income of Rs. 37,304 from the sale of poisonous drugs. The total expenditure on the Excise Department was Rs. 8,99,335 against Rs. 7,18,904 in 1330 F.

7. As a result of rectification of boundaries, the total forest area in the Dominions was increased from 9287·58 to 9361·01 square miles. 166·53 miles of new boundary lines were demarcated. The total number of forest cases for disposal was 9,007, of which 3,748 were disposed of. The total Forest revenue was Rs. 9,57,808 as against Rs. 8,14,837 in the preceding year and the total expenditure on the Forest Department was Rs. 8,26,714 against Rs. 6,34,923.

8. The total Customs duty realized during the year amounted to Rs. 1,27,07,878 as against Rs. 71,75,192 in 1330 F. The increase in Customs revenue was due mainly to a better agricultural year and the removal of restrictions which had been imposed on trade during the previous year on account of Famine. Total	25,987	10,754

25. During the year under report 66 Inam Certificates were issued as against 51 in the preceding year. **Inam Certificates.**

SECTION IV.

Excise.

26. Moulvi Abdul Latif Khan Saheb continued as Excise Commissioner during the year under report. **Control.**

27. The gross Excise revenue during the year under report amounted to Rs. 1,59,88,184 as against Rs. 1,47,57,856 in the previous year. **Total Excise Revenue.** Excluding compensation due to Jagirdars, sums payable to the British Cantonments, &c., the net Excise revenue was Rs. 1,40,71,588 against Rs. 1,29,67,102 in 1880 Fasli.

28. The total collections on account of country spirits, *sendhi* and *gulmohwa* flowers amounted to Rs. 1,47,37,893 as against Rs. 1,38,06,340 in the previous year. Deducting Rs. 6,24,245 payable to Jagirdars as compensation and Rs. 9,06,454 to the British Cantonment Authorities, the net revenue from country spirits, *sendhi* and *gulmohwa* flowers was Rs. 1,32,07,194 against Rs. 1,22,65,213 in 1330 Fasli.

29. The net Excise revenue of the Secunderabad Town and Cantonment (including revenue derived from opium and ganja paid to the Honourable the Resident during 1331 F.) was Rs. 8,46,237 as against Rs. 8,78,938 in 1330 F. As before, Rs. 72,440 were also paid to the Honourable the Resident for the use of the Aurangabad Cantonment in 1331 Fasli.

30. During the year under report 181 chests (of 70 seers each), 46 seers and 61 tolas of opium were imported from Malwa as against 114 chests, 69 seers and 64 tolas in 1330 F. The total income under this head was Rs. 10,20,377 as against Rs. 7,51,453 in the previous year. Deducting from this compensation due to Jagirdars (Rs. 31,119) and the Sarf-i-Khas *ilaka* (Rs. 31,550), the sum payable to the British Cantonment (Rs. 8,224), the price of opium (Rs. 2,38,800) and commission to vendors (Rs. 70,028) the net opium revenue amounted to Rs. 6,40,656 as against Rs. 5,08,002 in the previous year.

31. The total income from the sale of *ganja* and *bhang* increased from Rs. 2,00,063 in 1330 F. to Rs. 2,29,914 in 1331 F. Deducting Rs. 2,176 on account of compensation due to Jagirdars and Rs. 4,000 payable to British Cantonment Authorities, the net income was Rs. 2,23,738 as against Rs. 1,93,887 in the previous year.

32. The income derived from the sale of poisonous drugs was Rs. 37,304 as against Rs. 31,851 in the previous year. This was exclusive of the ordinary excise revenue mentioned in para. 27.

33. During the year under report, the number of *liquor* and *sendhi* shops increased from 29,911 to 30,239. The total consumption of liquor increased from 7,51,781 in 1330 F. (which was a famine year) to 8,26,342 proof gallons. This consumption was less than that in 1328 F. and 1329 F. when it was 11,34,116 gallons and 9,92,883 gallons, respectively.

34. The total number of abkari cases, including those pending disposal in the preceding year, was 187. Conviction was obtained in 123 cases and 27 cases were dismissed for want of proof, leaving 37 cases pending at the close of the year. The fines realised amounted to Rs. 1,477. The total number of cases for departmental enquiry was 2,753. Of these, 1,197 cases were disposed of (in 889 cases the offenders were fined and 308 cases were dismissed for want of proof) leaving 1,556 cases pending at the close of the year. The value of fines amounted to Rs. 15,793.

35. The total expenditure on the Excise Department amounted to Rs. 8,99,335 as against Rs. 7,18,904 in the previous year. The percentage of expenditure to revenue was 5.61 as against 4.85 in 1330 Fasli.

SECTION V.

Forests.

36. Nawab Hamid Yar Jung Bahadur, M. R. A. C., was in charge of the Forest Department throughout the year under report.

37. As a result of the rectification of old areas and the addition of new ones the total Forest area stood at 9,361·01 sq. miles at the end of 1331 F. as against 9,287·58 sq. miles at the end of 1330 F. as shown below :—

	1830 Fasli	1831 Fasli
	O.S.Rs.	O.S. Rs.
Protected Forests ..	6,994·55	7,009·52
Open or Unclassed Forests..	2,293·03	2,351·49
Total ..	9,287·58	9,361·01

During the year under report 14·97 sq. miles of Open Forest were declared protected under the Forest Act. The increase of 58·46 sq. miles under the open forest was mainly in Khammam and was due to rectification of areas.

38. 166·53 miles of new boundary lines were demarcated during the year under report as against 245·86 miles in 1330 F. bringing the total length of boundaries demarcated to the end of 1331 F. to 10,447·50 miles. The average cost of demarcation increased from Rs. 5-2-8 in 1330 F. to Rs. 7-8-2 in 1331 Fasli.

39. Very little survey work was done during the year by the Forest Officers. The Survey of India Party surveyed some of the forest reserves in the Mahboobnagar and Nalgonda districts. The working plans officer was for most part of the year engaged on work connected with the Colonization Scheme of the Development Department and was therefore able to reconnoitre only the Chincholi Reserve in the Gulbarga Division covering an area of 45·5 sq. miles.

40. No work of constructing new roads and buildings was done during the year under report.

41. Including the arrears of the previous years, the total number of forest cases for disposal during 1331 F. was 9,007 of which 3,748 were disposed of, leaving a balance of 5,259 at the close of the year. The fines realised amounted to Rs. 32,013 against Rs. 29,155 in 1330 F. Out of the 41 cases prosecuted in the Courts, 30 were decided. Conviction was obtained in 10 cases, while 20 cases were dismissed.

42. Fire protection was attempted over an area of 6,34,049 acres in 1331 F. as against 5,73,815 in the previous year. The cost of protection was the same as in the preceding year, viz 2 annas 2 pies per acre. The area of forests totally closed to grazing increased from 133·53 sq. miles to 152·01 sq. miles or from 1·9 per cent. to 2·1 per cent. of the protected forest area.

43. During the year under report, seedling and coppice reproduction fared better on the whole in areas closed to grazing and protected from fire excepting Medak where coppice growth was retarded for want of rains. The germination of teak seeds sown in 8,000 pits in the Nagaram range, broadcast sowings of teak, tirman, nallamadi, amaltas and babul in the Nizamabad and Medak divisions and the cane plantation in Nirmal was very much disappointing for failure of rains. Experiments with *Butea Frondosea* (Palas) for gum kino were carried out in Karimnagar and 6½ seers of gum obtained by tapping 2,000 trees. The experiment of silk worm rearing

is progressing satisfactorily in Mahadevpur. Attempts were also made to revive the old Tusser industry in the Karimnagar division where no less than 1,50,000 cocoons were collected but 75 per cent. of them were killed owing to an outbreak of an epidemic among the caterpillars due to late rains, thus seriously diminishing the output.

44. The area under systematic working was 4,42,377 acres. Bamboo fellings according to the sanctioned working plans were continued over an area of 1,14,940 acres. Only two coupes in Nirmal were worked departmentally while the rest were entrusted to contractors. There was no outturn of lac during the year as its growth was seriously damaged owing to the extreme summer heat followed by heavy rains. Gairi timber and fuel were allowed to be removed free of charge only from open forests for agricultural and domestic purposes. Timber of the aggregate value of Rs. 426-12-0 was removed on special free permits.

45 Receipts from the sale of timber and fuel, including charcoal, etc. amounted to Rs. 3,95,860 as against Rs. 2,80,319 in the previous year.

46 The income from minor forest produce totalled Rs. 5,62,908 against Rs. 1,82,834 in the preceding year, as shown below :—

		1880 Fasli	1881 Fasli
		O.S. Rs.	O.S. Rs.
Grass and grazing	84,656	4,62,855
Bamboos	18,906	19,450
Other minor produce	84,272	81,098
Total	1,82,834	5,62,908

47 The total revenue and expenditure for the year under report are compared below with the figures for 1880 Fasli.

Year	Revenue	Expenditure			Surplus
		Conservancy	Establishment	Total	
1880 Fasli ..	8,14,887	67,912	5,67,011	6,34,923	1,79,914
1881 Fasli ..	9,57,808	51,720	7,74,994	8,26,714	1,81,094

48. A Government fuel Depôt was started at Khammam. The receipts from sales amounted to Rs. 1,215 against a total expenditure of Rs. 745. During the year under report 2,295 acres of the forest areas were with the sanction of Government given on pattas for cultivation in the Medak division and in Kodanagal, Yadgir and Lingsugur taluks of the Gulbarga division.

SECTION VI.

Customs.

49. Mr. M. Azizuddin, C. I. E., C. V. O., continued as Customs Commissioner up to 15th Azur 1881 F. when, on termination of his service under His Exalted Highness' Government, Nawab Mohiuddeen Yar Jung Bahadur was appointed Customs

Commissioner and he remained in charge of the Department throughout the year under report.

50. The Customs Revenue for the year amounted to Rs. 1,27,07,878 as against Rs. 71,75,192 in 1880 F. as shown below :—
Revenue.

Year	Imports	Exports	Miscellaneous	Total
1880 Fasli	29,58,886	41,73,680	42,726	71,75,192
1881 Fasli	48,20,481	88,48,888	89,064	1,27,07,878
Difference	+ 18,61,645	+ 41,74,708	— 8,662	+ 55,82,686

The increase in revenue was mainly due to a better agricultural year, the removal of restrictions imposed on trade during the previous year on account of famine and close supervision of the Department by the Commissioner.

The chief increases in imports were under cloth (Rs. 5,26,347), Yarn (Rs. 2,39,536), salt (Rs. 1,99,423), silver (Rs. 1,19,627), sugar (Rs. 95,133), jaggery (Rs. 86,700), silk (Rs. 63,042), zinc sheets (Rs. 62,958), utensils (Rs. 36,871), gold (Rs. 35,526), machinery (Rs. 34,026), and gunny bags (Rs. 31,803), the most noticeable decreases being under European silk (Rs. 31,341), dry chillies (Rs. 14,413) and tobacco (Rs. 13,789).

As regards export duty, there were noteworthy increases under cotton (Rs. 24,06,766), cotton seed (Rs. 5,22,571), grain (Rs. 3,69,585), castor seed (Rs. 3,13,280), safflower (Rs. 1,30,097), ground nuts (Rs. 88,263), oils (Rs. 78,730), linseed (Rs. 75,993), til and ramtil (Rs. 73,103), animals (Rs. 41,575) and dry chillies (Rs. 39,196).

51. The following statement shows the value of gold and silver imported and the duty realized thereon during 1881 F. as compared with the figures for the preceding year :—
Import of Gold and Silver.

Year	GOLD		SILVER	
	Value	Duty	Value	Duty
1880 Fasli	22,21,000	2,211	2,16,000	15,802
1881 Fasli	87,71,569	87,787	27,08,189	1,85,429

52. Including arrears, the total number of smuggling cases for disposal in 1881 F. was 105. Of these, 70 cases were disposed of. In 61 of the cases disposed of the goods seized from the owners were redeemed by them while in 9 cases the goods were auctioned and the proceeds thereof amounting to Rs. 2,833 were credited to Government.
Smuggling Cases.

53. The total cost of the Customs Department on account of salaries, minor repairs to custom buildings, etc., amounted to Rs. 13,82,657 as against Rs. 13,93,686 in the preceding year. The percentage of expenditure to revenue was 10·8 against 19·4 in 1880 Fasli.
Cost of the Department.

54. During the year under report a Commission was appointed to revise the specific duties in the current tariff schedules in consideration of the rise in prices.

CHAPTER IV.

SECTION I.

Agriculture.

145. Mr. Mazhar Hussain M.A., B.Sc., continued in charge of the Control. Department during the year under report.

146. As before, the Department was chiefly occupied with the improvement of cotton and restoration of the indigenous longstaple variety. During the year under report 10,000 candies and 18½ maunds of selected seed were distributed as *takkavi* in the taluks of Parbhani, Jintur, Pathri, Basmathnagar and Manglegaon against 12,853 candies and 18 maunds in 1330 F. Rs. 2,21,000 were spent for the purchase of seed for distribution against Rs. 2,81,245 in the previous year. The area sown with gaorani seed supplied by the Department was 3,98,243 acres against 5,13,115 acres in the preceding year.

147. Silk yarn produced in the Mahbubnagar Farm was sent to the Aler Farm where silk cloth was manufactured. 53,500 Eri silk worm eggs were distributed among 13 applicants.

148. Six varieties of sugarcane from Coimbatore and three local varieties were grown as an experimental measure on the Government Farm at Kamaredi and of these the *Fiji* and the *pupple Mauritius* of the former and the *pundia* of the latter were proved to be the best. Sugarcane experiments were also continued with *turmeric*, *paddy* and *groundnut*.

149. In the Government Farm at Parbhani trials were proceeding with Cawnpore-American Cotton and other varieties both from the point of manurial treatment and method of cultivation. *The Sorghum Impi* a West African variety of fodder jawar was being tried in the Parbhani farm for the first time. Experiments were also going on with species of red and white jawar on account of their capacity for response to good treatment. As an experimental measure the gaorani cotton cultivation was for the first time undertaken in the Telingana in view to judge its growth on that soil.

150. Two hundred and twenty one Kirloskar ploughs were purchased by the ryots of the Maharathwara Districts through the Department.

151. An Agricultural Exhibition was held at Gulbarga, when the activities of the department in various directions were exhibited.

A number of wells in different places was deepened by means of the Agricultural Engineering. Musto's boring machines and the Calyx Core drill.

152. The total cost of the Agricultural Department in 1331 F. was Rs. 90,531 against Rs. 91,027 in the previous year.

SECTION II.

Weather and Crops.

153. As the rainy season in the State begins in June (Amardad) while the official year commences in October (Azur) the principal harvests of a Fasli year depend upon the monsoon of the preceding year.

The following statement shows the rainfall, month by month, for the monsoon period 1330-1331 F. :—

South-West Monsoon.

					Inches
June (Amardad)	6·68
July (Shahrewar)	8·88
August (Mehir)	4·79
September (Aban)	5·95
Total for South-West monsoon	26·25

North-East Monsoon.

October (Azur)	8·80
November (Dai)	0·09
Total for North-East monsoon	8·89
Total for the monsoon period	80·14
Total for December to May (Bahmon to Thir)	1·97
Total for the year (June to May)	82·11

154. The monsoon set in at the usual time and the weather continued favourable up to the first week of August. From the middle of August up to the middle of September there was practically no rain. Afterwards copious rain fell in almost all the districts, improving the condition of the crops a great deal. But the heavy rains during the first half of January 1922 injured the Rabi crops to some extent.

Though the rainfall of the year was normal the crops suffered owing to untimely rains and the yield amounted only to 50 per cent. to 75 per cent. (8 to 12 annas) of the normal.

155. The following statement shows the area and outturn of the principal crops in 1331 Fasli as compared with the figures for the preceding year :—

Crops			1330 F.		1331 F.	
			Area in Acres	Out-turn	Area in Acres	Out-turn
				Bales		Bales

SECTION III.

Co-operative Credit Societies.

156. Mr. Khan Abdul Majid Khan continued as Registrar, Co-operative Societies, up to the 29th Bahman 1331 F., when, on his reversion to British Service, Mr. Mohamed Abdul Basith Khan was appointed Registrar and remained in charge of the Department till the end of the year under report.

157. During the year under report, the number of Societies increased from 1,438 to 1,464, of which 13 were Central Banks, 1,278 Agricultural and 173 Non-Agricultural Societies.

158. The total number of members at the end of Amerdad 1331 F. was 38,434. Of these, 2,335 belonged to the Central Banks, 28,742 to Agricultural and 7,357 to Non-agricultural Societies.

159. One Central Bank was newly opened during the year at Karimnagar. The paid-up share capital of all the Central Banks amounted to Rs. 7,00,124 and the deposits held by them to Rs. 17,50,514. During the year Rs. 4,94,556 were lent to Societies and Rs. 5,26,528 were repaid by them. The profit earned by the Banks was Rs. 1,14,271.

160. During 1331 F. Rs. 5,65,647 were advanced by the agricultural societies to their members. Of this sum, 31·96 per cent. was for purchase of cattle; 26·35 per cent. for purchase of seed; 16·51 per cent. for improvement of land; 6·35 per cent. for redemption of lands; 5·17 per cent. for payment of revenue tax; 5·03 per cent. for purchase of food stuffs; 3·62 per cent. for digging and repairing wells; and the remainder for purchase of fodder, repair of buildings and miscellaneous purposes. The amount repaid by the members during the year totalled Rs. 4,14,220. The profits earned by the societies was Rs. 1,99,276.

161. Including 11 societies registered during the year, there were altogether 173 Non-Agricultural societies: 126 with limited liability and 47 with unlimited liability. The departmental societies at Hyderabad increased from 65 to 67. The stores and weavers societies increased from 13 and 34 to 14 and 37, respectively, and the profit earned by them was Rs. 391 and Rs. 2,273, respectively. There were four Paper Industry societies one each at Kagazipura Doulatabad, at Gudoor in Medak, at Koratla in Karimnagar and at Koalkonda in Mahbubnagar District and the profit earned by these societies amounted to Rs. 435.

162. A sum of Rs. 1,00,000 was sanctioned during the year for the development of cottage industries which would receive aid in the shape of loans to be paid back in 20 instalments; interest on the loan being payable at 6 per cent. only after the expiry of the first three years.

163. The total cost of the Department was Rs. 2,32,276 as against Rs. 2,09,941 in the previous year.

SECTION IV.

Factories.

164. During the year, there were 4 spinning and weaving mills and 212 cotton ginning and pressing factories against 3 and 208 respectively in the preceding year.

Spinning and Weaving
Mills, etc.

165. The total number of factories other than cotton factories at the close of the year was 160 as against 146 in 1930 F. as shown below :—

166. The total number of factories requiring inspection was 376 with 293 boilers. Of these, 356 factories with 272 boilers were inspected during the year. 20 factories with 21 boilers could not be inspected as they were closed temporarily owing to unsatisfactory rice crop and other like causes. The total amount of inspection fees collected amounted to Rs.10,014. There was no accident during the year under report and all the boilers, old and new, were reported to be working satisfactorily.

Control of Factories.

SECTION V.

Trade.

167. The statistics of the trade of His Exalted Highness the Nizam's Dominions are compiled from the Customs and railway returns.

Trade Statistics.

168. The following statement shows, in thousands of rupees, the aggregate value of imports and exports of the principal commodities during the year under report as compared with the figures for 1330 Fasli :—

The aggregate value of the trade of the Dominions during the year under report amounted Rs. 3,257·16 lakhs as against Rs. 2,701·80 lakhs in 1330 F. *i. e.*, an excess of Rs. 555·36 lakhs. There was a decrease of 159·85 lakhs under imports while increase under exports was 715·21 lakhs. Of the total increase in the value of exports, 378·27 lakhs were under cotton, 78·64 lakhs under cotton seed, and 78·61 lakhs under grain. The increase in the value of the commodities (as shown in the statement) was mostly due to their high prices but it was partly due to the increase in quantity as well. The chief increases under imports were under piece goods, yarn, salt, silver and gold.

169. The following statement shows in tons the volume of the principal imports and exports carried by His Exalted Highness the Nizam's Guaranteed State Railway during the year under report as compared with the figures for 1330 Fasli :—

SECTION VI.

Industries and Commerce.

170. Mr. Mohammadi, Assistant Director, was in charge of the Department till the 30th Thir 1331 F. when the Director's Office was abolished and he was made Deputy Secretary of the Department of Industries and Commerce.

171. No progress was made during the year under report regarding the erection of Alcohol Factory at Kamareddi beyond what was stated in para 162 of the report for 1330 F. As an experimental measure some mowha seeds were sown in the factory compound in order to watch carefully the effects of dry weather on these plants without being watered so that the experience thus gained might be helpful in the general plantation to be undertaken alongside the road between Kamareddi and Biknur to the extent of about 2½ miles deep on either side.

172. In addition to the two travelling parties constituted last year to hold demonstrations in districts for popularising the fly-shuttle looms two more parties were organised during the year under report. These four parties not only demonstrate the working of the fly-shuttle loom, improved dobbies etc., but they give practical training on these looms to the local weavers and demonstrate the superiority of the fly-shuttle over the old pit loom. The financial difficulties of the weavers to go in for the fly-shuttle looms have been considerably removed by constituting industrial societies amongst them. There were in all 160 fly-shuttle slays and 200 shuttles in the districts and they were working satisfactorily. It is gratifying to note that a large number of hand loom factories were established in the cities of Hyderabad and Secunderabad as well as in Warangal and Gulbarga Districts.

173. During the year under report, a wing 50 ft. by 25 ft. was added to the laboratory at a cost of Rs. 10,000 for Applied Chemistry section for carrying on experiments on semi-commercial scale both for giving practical demonstration of the chemical processes practised by the Chemists and for training the apprentices in these processes. Mr. Habeeb Hasan who was studying Leather Manufacture at the Leeds University returned from England after taking the degree of B. Sc., (Hons.) and joined the laboratory. The laboratory will be re-organised in such a way as to bring it in closer contact with the departments of Government such as Agriculture, Mining, Mint, Sanitation, Abkari, etc.

174. Out of Rs. 50,000 kept at the disposal of the Department of Industries and Commerce for granting loans to small scale industries subject to the rules in force. Rs. 18,000 were given to the owners of Dairy Farms during the year under report.

SECTION VII.

Public Works Department.

A. Irrigation Branch.

175. Mr. Mir Ahmed Ali, F. C. H., continued as Chief Engineer during the year under report.

176. The total cost of the staff employed by the Irrigation Branch in 1331 F. was Rs. 11,15,043 against Rs. 9,26,390 in the previous year.

177. The total expenditure on works amounted to Rs. 25,32,938 as against Rs. 21,04,225 in 1330 F. Of this sum, Rs. 14,33,852 were spent on original works and restoration, Rs. 7,88,105 on repairs, Rs. 1,91,880 on maintenance and Rs. 1,19,101 on accommodation, buildings, etc.

178. The expenditure on the Himayatsagar Project during the year under report was Rs. 16,75,937, of which Rs. 15,63,691 were spent on works and the rest on establishment.

179. Besides the above, the following works estimated to cost over two lakhs of rupees were in progress during the year under report: Mahbubnagar extension project, Singabhoopalium tank and Royenpally project.

180. During the year 625 estimates amounting to Rs. 44,10,429 were submitted to the Superintending Engineer for works including maintenance. The estimates for emergent repairs numbered 112 and amounted in value to Rs. 1,86,621. The Tank Restoration Survey Party surveyed 129 tanks and prepared 105 estimates.

181. During the year there was an expenditure of Rs. 1,30,142 on Khuldabad Ghat Road and Special Building Division against a grant of Rs. 1,49,129.

B. General Branch.

182. Mr. Mohamed Karamatullah Khan, B. A., F. C. H., who had been appointed Chief Engineer on the 29th Amerdad 1329 F. remained in charge of the department during the year under report as in the previous year.

183. The total cost of the staff employed by the General Branch during the year was Rs. 8,28,260 (exclusive of the cost on account of Adilabad Division) against Rs. 6,96,423 in 1880 F. The percentage of establishment charges to the total expenditure on works was 18·1 against 17·5.

184. In 1881 F. the budget grant for works was Rs. 49,07,607 and the actual expenditure Rs. 45,61,982 as against Rs. 40,23,872 and Rs. 39,74,893, respectively, in the previous year. Rs. 22,94,656 were spent on buildings, Rs. 22,07,073 on communications and the rest on travellers bungalows, &c.

185. Out of the total expenditure on buildings Rs. 16,99,820 or 74·07 per cent. were spent on original construction, Rs. 2,35,453 on purchase of lands and buildings and the rest on repairs and maintenance. The principal building under construction during the year was the Osmania General Hospital; the City High School building was completed.

186. One hundred and forty one miles of new roads were completed and opened for traffic during the year. The total mileage maintained by the Public Works Department is now 2,625. Of the total expenditure on roads Rs. 11,93,060 or 54·05 were spent on construction and the rest on repairs and maintenance. The expenditure on construction, repairs and maintenance was distributed among different subas as follows :—

Name of suba	Area	Total length of roads	Total expenditure O.S. Rs.
Gulshanabad-Medak ..	20,350 Sq. Miles	1,164 Miles	8,93,986
Aurangabad ..	19,268 ..	580 ..	4,11,689
Gulburga ..	22,110 ..	641 ..	4,12,873
Warangal (excluding Adilabad Division)	20,970 ..	240 ..	4,88,525

187. The budget allotment for the Hyderabad New Water Distribution Scheme for the year under report was Rs. 11,27,634 against which an expenditure of Rs. 10,76,471 was incurred. Out of this Rs. 10,16,678 were spent on works and Rs. 59,793 on establishment. The Budget grant for the Hyderabad Water Works was Rs. 45,207 against which an expenditure of Rs. 47,519 was incurred during the year. The annual maintenance grant for the Aurangabad Water Works, which supply water mainly to the Cantonment, is Rs. 1,912 of which the British Government contribute B. G. Rs. 1,050. In addition to the maintenance grant an expenditure of Rs. 3,560 was incurred during the year for pumping and bailing out water from the depressions in the stream.

SECTION VIII.

Telephone Department.

188. The number of Exchange and private lines increased from 465 to 519 and that of Extension lines from 164 to 179. Besides these, there was one service line as in the previous year.

189. The income realized from telephone fees, etc., in 1881 F. was Rs. 3,19,040 as against Rs. 1,44,741 in the previous year and the expenditure Rs. 86,180 against Rs. 64,288. The telephone fees remaining uncollected at the end of the year amounted to Rs. 11,196.

SECTION IX.

Railways.

190. During the year ending September 1922, 7·62 miles were added to the open mileage in the State, making a total of 880·92 miles : under Broad Gauge 380·13 miles, and under Metre Gauge 550·79 miles.

Open Mileage.

191. Much progress was made in the construction of the southern section of the Kazipett-Bellarshah Railway as far as Goliara on the 66th mile. Work on the northern section was suspended.

New Construction.

Equally good progress was made in the linking of Gudwal with Kurnool. The line was nearing completion up to the British frontier. The alignment from the 28th mile to Kurnool was not decided upon and work had to be suspended pending decision.

192. During the year under report elaborate attempts were made to develop the backward portions of the Divisions by the construction of roads and railways. Over 600 miles of feeder railways were under consideration and some surveys have been taken in hand.

Survey.

193. In the year under report no additions were made to the face value of Board Gauge stock or Broad Gauge Guaranteed debentures which remained the same as in 1330 F., viz. £451,830 and £88,000, respectively. Including additions made during the year, the value of Broad Gauge unguaranteed debentures and Metre Gauge debentures held by His Exalted Highness' Government at the end of 1331 F. was £9,44,400 and £6,59,000, respectively, as against £8,45,300 and £ 5,88,000 in 1330 F. The loan of Rs. 17 lakhs advanced to the Railway Company in 1330 F. still subsists. This is repayable in cash or by the issue of debentures within three years, and, if not repaid, it is to be continued on terms to be mutually agreed upon.

Government Holdings in the Railways.

194. The Broad Gauge Railway from Wadi to Bezwada with a length of 330·13 miles and a capital outlay to the end of the Fasli year of B. G. Rs. 5,82,53,182, had gross earnings amounting to B. G. Rs. 94,05,527. The net earnings amounted to Rs. 55,23,909 giving a percentage of 9·48 on the capital expenditure against 11·49 in the previous year.

Earnings.

The Hyderabad-Godavery Valley Metre-Gauge line, with a length of 391·40 miles and a capital expenditure to the end of September 1921 of Rs. 3,48,82,903 had gross earnings amounting to Rs. 77,06,149. The net earnings amounted to Rs. 42,63,848 yielding a percentage of 12·22 on the capital expenditure against 10·14 in 1330 Fasli.

The gross earnings of the Secunderabad-Kurnool line of which 109·08 miles were open for traffic in 1331 F., with a capital expenditure of Rs. 1,06,89,263 were Rs. 5,48,045. The net earnings amounted to Rs. 92,920 which gives a percentage of ·87 on capital outlay against ·28 in 1330 F.

The gross earnings of the Purna-Hingoli Branch (Metre Gauge line) with a length of 50·81 miles and a capital expenditure of Rs. 29,53,564 amounted to Rs. 2,68,158. The net earnings were Rs. 1,19,972, which gives a percentage of 4·06 against 1·49 in the previous year.

195. In the year under report the full amount of the guaranteed interest paid by Government was refunded by the Railway Company and His Exalted Highness' Government also received Rs. 2,69,370 as their share of surplus profits.

Guaranteed Interest.

196. The amount outstanding against the Railway Company in the Broad Gauge Contingent Liability Account on the 30th September 1922 was £ 2,827,671 including interest at 5 per cent. per annum. There were no outstandings in the Contingent Liability Account of the Metre Gauge Railway.

197. At the end of 1331 F. the nominal value of 5 and 6 per cent. Old State Railway shares on which His Exalted Highness' Government were paying interest was O.S. Rs. 22,19,250 and Rs. 12,33,593, respectively.

198. The Company declared the usual dividend of 5 per cent. on their share capital.

SECTION X.

Mines and Quarries.

199. Mr. Khurshid Mirza, B.Sc., A.I.M.E., was in charge of Mines Control. Department throughout the year under report.

200. The following statement shows the area in which mining operations were carried on, the output of minerals worked and the royalty paid to His Exalted Highness the Nizam's Government during the year 1922 as compared with 1921 :—

English High Schools.

267. The direct expenditure on Government English High Schools increased from Rs. 2,03,420 to Rs. 2,46,624 while the cost per pupil decreased from Rs. 71 to Rs. 67.
Cost. The income from fees was Rs. 37,589. The direct expenditure on aided English High Schools was Rs. 1,26,588 including Rs. 30,879 contributed by Government and the cost per pupil Rs. 57. The income from fees was Rs. 51,977.

268. The number of Usmania High Schools rose from 9 to 11 of which 8 were Government, 1 Sarfikhass and 2 aided schools.
Usmania Oriental High Schools. The number of boys under instruction increased from 3,458 to 4,443. Five hundred candidates appeared for the Usmania Matriculation Examination: 146 from Government Schools, 52 from aided schools and 302 private candidates. Of these, 94 were successful: 49 from Government schools, 11 from aided schools and 34 private candidates.

269. The direct expenditure on Government Usmania High Schools was Rs. 1,54,763 against Rs. 1,02,780 in the previous year and the average cost per pupil Rs. 48 against Rs. 38. The income from fees was Rs. 7,644. The direct expenditure on the Sarf-i-Khas High School was Rs. 9,155 and the average cost

Rs. 29. The income from fees was Rs. 960. The direct expenditure on aided Usmania High Schools was Rs. 23,249 including Rs. 10,410 contributed by Government, and the average cost per pupil Rs. 24. The income from fees was Rs. 10,338.

270. The number of middle schools for boys decreased from 93 to 91 while the number of boys under instruction therein increased from 21,510 to 22,413. During the year two 1st grade middle schools (one Sarf-i-Khas and one Aided) were raised to the Usmania High School standard. Thus there were 61 middle schools managed by Government, 2 by Sarf-i-Khas *ilaka*, 21 by aided and 7 by unaided agencies.

271. The total cost of Government Middle Schools was Rs. 6,47,975, as against Rs. 3,99,662 in the preceding year. The income from fees was Rs. 22,602. The cost of Sarf-i-Khas schools was Rs. 12,907, of aided schools Rs. 80,622, and of unaided schools Rs. 26,496. Their income from fees was Rs. 537, Rs. 13,626, and Rs. 5,083, respectively.

272. 3,775 boys appeared for the Middle School examination, of whom 1,370 or 36·2 per cent. were successful against 43·5 per cent. in 1330 F. Of the successful pupils, 919 were from Government schools and 199 from aided schools, while 252 were private candidates.

273. The number of boys' primary schools increased from 3,378 to 3,441 and the number of pupils attending them from 1,64,513 to 1,75,057. 27 per cent. of the schools were in the Warangal Suba, 25·4 in the Gulshanabad-Medak Suba, 22·3 in the Aurangabad Suba, 21·9 in the Gulbarga Suba and 3·3 in the Hyderabad City and Atraf-i-Balda. Of the total number of Primary Schools. 720 were maintained by Government, 103 by the Sarf-i-Khas *ilaka*, 2,337 by the Local Boards, 239 by aided and 42 by unaided agencies.

274. Government Primary Schools cost Rs. 13,24,595, Sarf-i-Khas Schools Rs. 62,955, Local Boards' Schools Rs. 2,72,680, aided schools Rs. 58,586 and unaided schools Rs. 10,269. Government realised Rs. 14,459 from fees, Sarf-i-Khas *ilaka* Rs. 3,564, Local Boards Rs. 14,886, aided agencies Rs. 4,414 and unaided agencies Rs. 618. The average cost per pupil was Rs. 16-6-10 to Government, Rs. 8-7-4 to Sarf-i-Khas *ilaka*, Rs. 3-9-4 to Local Boards, Rs. 6-15-11 to aided agencies and Rs. 4-0-3 to unaided agencies.

275. 7,102 boys appeared for the Special Upper Primary Examination, of whom 2,613 were successful.

276. The number of girls' schools increased from 767 to 781 while the number of pupils therein decreased from 36,362 to 35,938. Of the total number of schools, five were High Schools (two managed by Government and three by aided agencies and all located in Hyderabad and Secunderabad), 14 Middle Schools (two Government, five aided and seven unaided) and 762 Primary schools (418 Government, eight Sarfikhas, six Local Boards, 327 aided and 3 unaided.)

277. 19 girls appeared for the High School Leaving Certificate Board Examination, of whom 12 were successful. 60 appeared for the Middle School Examination, of whom 33 were successful (4 from Government schools, 21 from aided schools and 8 private students). 473 girls appeared for the Special Upper Primary examination, of whom 179 were successful. 25 appeared for the Cambridge Local Examination, of whom 17 were successful.

278. The total expenditure on girls' schools was Rs. 6,18,758 against Rs. 4,64,944 in the previous year. Of this, Government schools cost Rs. 4,47,482, Sarfikhas schools Rs. 6,520, Local Boards schools Rs. 1,064, aided schools Rs. 1,37,324 and unaided schools Rs. 26,368. Government realised from fees Rs. 12,089, aided schools Rs. 18,563 and unaided schools Rs. 3,584. The average cost per pupil was Rs. 19-15-1 in Government schools, Rs. 10-0-8 in Sarfikhas schools, Rs. 6-12-5 in Local Board schools, Rs. 12-1-5 in aided schools and Rs. 19-11-3 in unaided schools.

279. As in the preceding year there were 24 special schools. The number of pupils under instruction fell from 3,131 to 2,833. The total expenditure on special education rose from Rs. 2,13,682 to Rs. 2,24,762. The working of the more important schools is given below :—

(a) *Normal schools for male teachers.*—As before there were three normal schools, one each at Hyderabad, Warangal and Aurangabad. The number of pupil teachers under training in the Hyderabad Normal School decreased from 201 to 199. The total expenditure was Rs. 37,038 and the average cost per pupil Rs. 186 against Rs. 39,274 and Rs. 195, respectively. Sixty five teachers appeared for the Upper Primary and 27 for the Lower Primary Examination, and 59 of the former and 23 of the latter were successful. In the Warangal Normal School there were 84 pupil teachers under training against 76 in the previous year, and the total expenditure incurred during the year was Rs. 10,405 as against Rs. 9,153 in 1330 F. Fifteen teachers appeared for the Upper Primary and 22 for the Lower Primary Examination and 11 of the former and 17 of the latter were successful. In the Aurangabad Normal School there were 92 pupil teachers under training as against 94 in the preceding year, and the total expenditure incurred during the year was Rs. 10,025 against Rs. 8,850. Twenty three teachers appeared for the Upper Primary and 23 for the Lower Primary Examination, and 20 of the former and 22 of the latter were successful.

(b) *Normal Schools for Female Teachers.*—As in the preceding year, there were four normal Schools in 1331 F., one each at Hyderabad, Aurangabad, Warangal and Gulbarga, where instruction is imparted in Urdu, Marathi, Telugu and Canarese, respectively. In the Hyderabad school there were 154 pupils, in the Aurangabad school 109 pupils, in the Warangal school 158 pupils and in the Gulbargah school 122 pupils. The expenditure incurred on these schools was Rs. 16,334, Rs. 7,572, Rs. 9,451 and Rs. 2,897, respectively. From the Hyderabad school 10 female teachers appeared for the Training Certificate Examination and of these 6 were successful. Seven appeared for the Special Upper Primary Examination and they were all successful. From the Aurangabad and the Warangal schools 13 female teachers appeared for the Special Upper Primary Examination, of whom 10 were successful. From the Aurangabad school 5 female teachers appeared for the Lower Primary Examination and all of them were successful.

(c) *Hyderabad Engineering School.*—The number of pupils in the Engineering School decreased from 91 to 86. The total expenditure was Rs. 36,688 as against Rs. 26,909 and the fees realised amounted to Rs. 2,318 as against Rs. 2,177 in 1330 F. Twenty seven candidates appeared for the final examination of the Upper Subordinate Class and 10 for the final examination of the Lower Subordinate Class, and 13 of the former and 5 of the latter were successful.

- (d) *Industrial Schools*.—As in the preceding year, there were six Industrial schools in the State in 1331 F., one maintained by Government, three by Local Boards, one by aided and one by unaided agency. The total number of pupils in the institutions maintained from public funds was 254 against 336 in 1330 F. and the expenditure Rs. 28,298 against Rs. 27,749. Thirteen pupils appeared for the Elementary Drawing Examination and seven for the Intermediate Drawing Examination: seven of the former and three of the latter were successful. The number of pupils in the Victoria Memorial Orphanage decreased from 517 to 505. Of these, 245 were boys and 260 girls. The total expenditure on the Orphanage was Rs. 51,148 against Rs. 69,985 in the preceding year.

280. The total expenditure incurred on account of scholarships by Government and other public agencies increased from Rs. 3,18,865 to Rs. 4,85,542 as shown below :—

		1330 F.	1331 F.
		O.S. Rs.	O.S. Rs.
General Scholarships	1,52,148	1,87,740
Asiatic Scholarships	22,904	43,938
English Scholarships	1,19,910	2,38,679
Miscellaneous Scholarships	28,908	15,190
Total	<u>3,18,865</u>	<u>4,85,542</u>

281. The expenditure on school buildings incurred by Government and other public agencies during the year under report amounted to Rs. 3,38,560 against Rs. 3,79,660 in 1330 F. Additions to and alterations in the Mistresses' Quarters of the Mahbubia Girls' School were made and the only important building under construction in 1331 F. was the City High School.

282. The expenditure on furniture incurred by Government and other public agencies amounted to Rs. 2,17,668 as against Rs. 1,12,730 in the preceding year.

283. The expenditure on public libraries was Rs. 1,05,645 as against Rs. 43,648 in 1330 F. Contributions to aided libraries amounted to Rs. 1,440.

284. The expenditure on the Asafia Library was Rs. 19,856, of which Rs. 7,380 were spent on the purchase of books. There were 26,353 books in the Library at the end of 1331 F. of which 17,416 were in Arabic, Persian and Urdu and 8,937 in English and other European languages. In all 38,904 people visited the Library and consulted 38,781 books during the year under report.

SECTION II.

Literature and Press.

284. During 1331 F. 165 books were published against 156 in 1330 F. Thirty eight of the new publications dealt with Theology and Ethics, 35 with Law, 15 with History, 14 with Poetry and Drama, 7 with Fiction, 13 with Hygiene, 28 with Education and 15 were of a miscellaneous character. Besides, 45 books dealing

with various Sciences and Arts, History, Philosophy, etc., were translated by the Translation Bureau. Of these, 21 are under print; 24 have been printed and out of these, 10 have been published.

285. Six new presses were opened during the year under report against
Presses. 8 in 1880 Fasli.

286. License was given for publication of 5 periodicals against one
Journalism. newspaper and 4 periodicals in the previous year.

287. Twenty two applications for registration of books were sanctioned during the year against 23 in 1880 Fasli.
Registration.

CHAPTER VII

SECTION I

Government Income and Expenditure

288. IN the review of the Revised Estimates for 1331 F. last year it was remarked that the hope of a favourable monsoon after several successive disastrous seasons had been realised in the year then closing and consequently the expectations of heavy receipts had already materialised to a very considerable extent.

The Accounts for 1331 F. show the results to be even better than what had been anticipated in the Revised. Customs, for which 100 lakhs was considered at the time of budgetting a "record figure," is 129·69 lakhs, about 9½ lakhs more than the Revised. The Interest figure likewise shows an improvement of 13·62 due to a higher bank rate and larger deposits; this increase under Interest, however, is more than wiped off by the decrease of 14·22 under Railways owing to surplus profits being ear-marked for payment of excess profits and corporation taxes in England. The totals of expenditure, too, are about 9 lakhs less than the budget. The surplus, therefore, of ordinary receipts and expenditure is 58·83 lakhs, and is thus better than the budget by 41·68 lakhs and the Revised by 34·81. Against this, however, must be set off Extraordinary expenditure amounting to Rs. 16·42, of which 7·27 is for arrears of famine expenditure, 2·16 for payment of advance salaries to the late President and his staff, 1·57 under H.R.H. the Prince of Wales' visit, and 5·42 for special donations to the Oriental Publications Bureau (*Dairat-ul-Maarif*) and other literary institutions. The net surplus, therefore, is 42·41 against an estimate of 15·15. The figures are as follows :—

Heads	Budget	Actuals	+ Better —Worse
Ordinary receipts	678·55	711·24	+ 32·69
Expenditure	661·40	652·41	+ 8·99
Gross surplus	17·15	58·88	+ 41·68
Extraordinary : Famine	2·00	7·27	— 5·27
Other Items	9·15	— 9·15
Total	2·00	16·42	— 14·42
Net surplus	15·15	42·41	+ 27·26

RECEIPTS

289. With the important exceptions of Customs, Railways and Interest, the other receipts have, more or less, followed the estimates. The important variations are tabulated below :—

Budget Heads			Under-estimate in lakhs	Budget Heads			Over-estimate in lakhs
Land revenue	2·23	Forest by land revenue	0·56

Increases

290. Owing to the Famine years from 1328 to 1330 F. a part of Peshkush was in arrears which was realised in 1331 F. This contributed an increase of 3·09 over the estimate. On the other hand, there was a slight fall in the Ryotwari and Sivai Jamabandi revenue of about ·86 which has reduced the increased revenue to 2·23.

291. The increased revenue under Customs is not due to any general increase in import or export Tariff rates, but is mainly attributable to better agricultural conditions and consequently larger exports of cotton and oil seeds; there being some improvement (5·09) also in import duties. The following are the detailed figures :—

Estimates				Actuals		
Heads	Balda and Secunderabad	Districts	Total	Balda and Secunderabad	Districts	Total
Imports	20·80	35·00	55·80	18·53	42·86	60·89
Exports	6·26	57·70	63·96	2·70	81·52	84·22
Octroi	2·92	..	2·92	2·80	..	2·80
Other heads	·07	·84	·41	·05	·84	·39
Total	30·05	93·04	123·09	24·08	124·22	148·30
Net share to General revenues	6·88	93·04	99·92	5·47	124·22	129·69

292. The increase in revenue does not imply increase in consumption. It is as usual the result of vigorous administration by its able Commissioner.

293. The increase is partly (·62) due to increase in price and partly (·45) to collection of past arrears, and renewal of contracts.

294. The increase in Sterling investments and more specially reduction in the British Income tax contributed an increase of 4·35. The higher Bank rate that prevailed during the year and also larger interest bearing deposits combined to yield 6·81 more. The balance is due to better return on miscellaneous advances.

295. This represents the net gain due to the financing of the export trade by sale of 287·22 O.S. bills on Bombay.

296. The increase is due to payment in 1331 F. of the profits of previous years.

297. The other increases are too small to call for any remarks.

Decreases

298. The decrease may chiefly be attributed to fall in grazing fees and sales of fuel.

299. Measures for conservation are responsible for a fall of 1·38 under revenue from produce removed by Forest Officers and of ·44 in produce removed by purchasers.

300. It was expected that the revenue would rise considerably owing to the creation of new Munsiffs' Courts. The actuals for 1331 F. are better than those of 1330 F. by ·68, but have not come up to the Budget Estimate. Revenue and Judicial stamps show a decrease of 2·02, made up to a considerable extent by Court Fee Stamps (1·38).

301. The receipts for 1331 F. are practically the same as for 1330 F.; the expectations of enhanced proceeds have not materialised.

302. The receipts for 1331 F. are 7·37 against 6·91 of 1330 F. It was expected that enhanced postage rates would be enforced early in 1331 F. This was not found feasible. Hence the actuals of 1331 F. are less than the Budget although more than the actuals of 1330 F.

303. During 1331 F. the payment of surplus profits of the Broad Gauge and the Metre Gauge Railways was deferred pending settlement of the payment of British Income, Corporation and excess profits taxes; this accounts for the apparent decrease.

304. The decrease is due to the depreciation charges (1·05) for 1332 F. being paid in advance in 1331 F. The commercialised accounts of the year show a profit of 1·58.

305. This is the last year in which Workshop accounts will appear not fully commercialised. The excess of expenditure over receipts amounts to ·77.

306. The decrease is under miscellaneous receipts which are a constantly variable item.

307. The other decreases do not call for any explanation.

EXPENDITURE

308. The important variations from the Estimates are tabulated below :—

Budget Heads	Under- estimates in lakhs	Budget Heads	Over- estimates in lakhs
Land Revenue	·46	Opium	·20
Interest	·36	Forest	·72
Education	3·67	Customs	1·58
Minor Depts.	·29	Excise	2·88

		Municipality and Public Improvements	4·41
		Industrial Department	1·04
		Other heads	·32
Total ..	16·06	Total ..	25·05
Net decrease 8·99			

It will be observed from the above that the ordinary service expenditure is less than the budget by about 9 lakhs. The chief heads under which there have been increases are :—Education (3·67), Communications and Buildings (5·09), Irrigation (2·26), Development (2·18) and Miscellaneous (·58) lakhs. On the other hand, the main decreases are under the heads Municipalities and Public Improvements (4·41), Military (4·19), Medical (3·22), Excise (2·33), Customs (1·58), Courts (1·22), Agriculture (1·24) and Industries Department (1·04); the cumulative effect of other variations has resulted in a saving of 3½ lakhs. It may be noted that the under-estimates of expenditure under certain heads like Education, Communications and Buildings, and Irrigation do not really indicate any excess over their detailed budget allotments but only an over-estimate of the “Probable Savings” which were, in accordance with past experience and practice, deducted from their total allotment, and the net balance only shown in the budget to make it approximate more closely to what, it was expected, the departments would spend in the aggregate. Thus, for example, the sum total of the different allotments made in the detailed Educational budget came to 63·74 lakhs, but 5·38 lakhs was deducted from this as probable savings and 58·36 shown as the total net grant in the budget. The accounts show an actual expenditure of 60·68 lakhs which is over the net but within the gross budget allotment. In other cases like the Development Department the under-estimate is due to the creation of new counter-balanced by the abolition of existing appointments in other departments like the Industries Department, which consequently show an over-estimate.

Under-Estimates

309. The increase is chiefly under salaries, due to District Treasury establishment being shown for the time being under this head; it is balanced in part by savings under the provision for other salaries and reserves.

310. The increase (.70) is due to the interest paid on the new loan raised in 1880-1881 F. This however is partly balanced by decrease in Interest paid on Fund Deposits as well as other liabilities of Government, leaving the net increase at .36.

311. The budget estimate provided for two reserves under this head, one for revision of salaries and the other for expansion, aggregating $8\frac{1}{2}$ lakhs (8.48). Out of this the University with its Press has absorbed .28, High Schools .39, Middle Schools .85 which three together make up about a lakh and a half (1.52); whilst Primary Schools have taken up almost $5\frac{1}{2}$ lakhs (5.16). Inspection shows an increase of about $\frac{1}{2}$ a lakh (.49) whilst Scholarships, due to a specially large batch of students having been sent for Technical and Industrial training to England, has an increase of over a lakh (1.06); Libraries one-third of a lakh (.33). Thus the Department has spent fully up to the grants allotted to it, and there has been practically no "Probable Savings" for which, in accordance with previous practice and experience, a deduction of 5.38 had been made in the departmental total to make it approximate to more closely to what was expected would be spent by the Department on the whole. The actual expenditure would have shown an excess practically to the full extent of this amount of "Probable Savings" but for the fact that the receipts of the Department are better by half a lakh (.54) and the adjustments on account of Pension are less by about a lakh (.86); and thus the under estimate in the net grant as shown in the budget is 3.67.

312. The increase is due to the final payment of .39 to the Italian expert for conservation work of the Ajanta Caves, which, balanced partly by small savings under various items, leaves the expenditure .29 higher than the estimate.

313. The budget anticipated savings of 6.90 in their grant. The department has, however, spent its grant almost upto the full with the result, as in the case of the Educational Department, that the net budget total under this head shows an increase of 5.09; in other words, the "Probable Savings" had been over-estimated at seven lakhs instead of a lakh only.

314. Here again as against "Probable Savings" of 6.90, which were deducted from the gross grant of 43.42 of the Department, they have amounted only to about 4.64, leaving thereby an increase of 2.26 in the net budget figure.

315. There has been an increase of .25 under working expenses, due to purchase of machinery and a decrease in receipts mainly owing to bills pending realisation, which have led to a net increase of .72 over the Budget grant.

316. This was a new Department, inaugurated during the course of the year, and the apparent increase is really made up of expenditure transferred from other Departments.

317. The increase is mainly due to miscellaneous refunds of amounts, adjusted previously to unclassified compensations (.21), being charged to this head.

318. The other variations (.45) under various items are too small to call for special remarks.

Over-Estimates

319. The savings are under salaries (.13) commission on sale and other items (.07).

320. The savings are under conservancy and works ($\cdot 95$) and are balanced partly by increases due to revision of salaries and other small items amounting to $\cdot 28$.
Forest $\cdot 72$

321. The savings are due to reserves for revision of salaries, etc. not being utilised ($1\cdot 18$). The fall in pension charges ($\cdot 15$) and repairs ($+ \cdot 25$) account for the remaining increase.
Customs $1\cdot 53$

322. The reserve for the reorganization and the revision of salaries ($2\cdot 85$) was found more by $\cdot 83$ than required. The consequent decrease in pensionary charges ($\cdot 21$) and the savings from unpaid compensation ($1\cdot 19$) contribute towards the remaining decrease.
Excise $2\cdot 33$

323. The decrease is mainly due to savings under purchase of materials under Stamp Manufacture.
Stamps $\cdot 61$

324. The savings are mainly under coining charges.
Mint $\cdot 40$

325. The lapse is mainly under charges for printing Currency Notes.
Paper Currency $\cdot 23$

326. The total charges under General Administration is $35\cdot 17$ against the estimate of $33\cdot 32$. Eliminating however the extraordinary charge of $2\cdot 16$ on account of advance salaries to the late President and his staff, the actual ordinary expenditure under this head is $\cdot 31$ less. The decrease is mainly due to the expenditure of District Treasuries approximating $2\cdot 50$ being shown in 1331 F. under Land Revenue, balanced to a large extent by excess expenditure under Tour Charges ($\cdot 65$) and increase due to revision of salaries.
General Administration $\cdot 31$

327. The decrease is, as usual, due to lapses by the demise of Mansabdars.
Mansabs $\cdot 36$

328. The chief lapses are under Regular Troops ($1\cdot 22$), Imperial Service Troops ($1\cdot 57$), Golconda Brigade ($\cdot 46$) and Irregular Troops ($1\cdot 32$) due to unfilled vacancies. These savings are over and above the estimated probable savings of ($3\cdot 37$). The lapses have been to some extent balanced by increases under pensionary charges, bringing the net decrease to $4\cdot 19$.
Military $4\cdot 19$

329. The savings under reserves for re-organisation of salaries after placing officers in the new grades is ($\cdot 82$). The decrease in pensionary charges ($\cdot 10$) combined with increased receipts and adjustments have brought the net decrease to $1\cdot 22$.
Courts $1\cdot 22$

330. The savings are under salaries ($\cdot 39$), pensionary charges ($\cdot 29$) and buildings ($\cdot 18$).
Police $\cdot 86$

331. The lapse is due to the absence of epidemics ($2\cdot 07$). Improvement in receipts has contributed a further decrease of $\cdot 22$. The savings from the reserve make up the remaining decrease.
Medical $3\cdot 22$

332. The decrease is due to the general reserve and the reserve for sinking of wells not being utilised.
Agriculture $1\cdot 24$

333. The savings under special charges ($\cdot 56$), unspent reserve ($\cdot 31$), improvements in receipts ($\cdot 23$) and other items ($\cdot 08$) make up the total decrease of ($1\cdot 18$).
Veterinary $1\cdot 18$

334. The savings of ($\cdot 41$) under salaries and contingencies and the lapses in reserve ($\cdot 21$) mainly account for the decrease.
Co-operative Credit $\cdot 68$

335. Savings under Drainage scheme (6·00), City Improvement Board Municipalities 4·41 (·54) and other items (·22) set off by the increase under Flood Remedial Works, etc. (2·35) account for the lapse.

336. Abolition of the Directorate (·49) substituted by a Deputy Secretary under General Administration and savings under reserve and other charges explain the decrease. Industrial 1·04

337. The other lapses aggregating ·32 in various heads are too small to require notice. Other Heads ·32

338. A portion of the famine expenditure for 1330 F. had remained unadjusted. The adjustment amounted to 7·27 or 5·27 more than was anticipated. Famine 5·27

339. Capital expenditure was 103·58 lakhs against an estimate of 96·47 lakhs. The chief variations were as follows :— Capital Expenditure

		Estimates	Actuals
Railway construction	..	53·73	68·16
Electricity	30·95	31·92
Workshop	1·27	·01
Telephone	6·52	3·49
Industries	4·00	..
Total	..	96·47	108·58

The expenditure under Railway construction is really an adjustment of past commitments. £25,000 represent a payment authorised in 1915 for the purchase of three locomotive engines and other material for the Secunderabad-Gadwal Railway, which the Company was allowed to draw in 1922. £55,000 were for material for the completion of the Kazipett-Bellarshah line. The increase under Electricity and the decrease under Telephone are due to actual charges during the year.

340. The Investments during the year were 29·17 lakhs against an estimate of 23·33 lakhs. The increase is due to payments on account of the first instalment (3·50 lakhs) of 20 lakhs of Singareni Collieries Debentures and the first call (2·33 lakhs) of 5 lakhs of Shahabad Cement Co. shares, by the purchase of which Government have decided to help these two large capital undertakings within the State. Investments

341. The variations under Debt Heads are tabulated below :—

Debt Heads

Heads	Receipts		Expenditure		Estimated surplus or deficit	Actual surplus or deficit
	Estimate	Actuals	Estimate	Actuals		
Govt. Debt.	71·22	1·50	·88	— 1·50	+ 70·84

Remittances	16·47	..	148·77	..	—132·30
Suspense (uncashed cheques).	..	87·43	+ 37·43
Total ..	25·17	308·07	12·18	304·60	+12·99	— 1·53

The subscriptions to the 6 % loan of 1351-1361, which was announced after the issue of and was, therefore, unprovided for in, the 1331 F. budget fetched 71·22 lakhs. The loan was raised to finance capital commitments for Railway construction and Electric Power House, and the fact that it was over-subscribed at 6 % notwithstanding the more tempting loans then in the British Indian Market was a gratifying testimony, at the time, to the high level at which the credit of His Exalted Highness' Government stood.

342. The transactions under this head have resulted in a net deficit of 2·39. The investments made by the State Life Insurance (3·48), Telephone depreciation and Electricity Department depreciation (2·14) were counter-balanced by withdrawals of State Life Insurance Fund (8·01).

Deposits bearing In-
terest

343. Receipts under this head were 142·97 lakhs and disbursements amounted to 127·94 resulting in a surplus of 15·03. The surplus is chiefly attributable to excess deposits by Local Funds (6·48), Public Works Department (2·93) and Court of Wards (2·50), Villages under attachment (2·37) and other depositors (1·43). The excess withdrawals under various minor heads were ·68.

Deposits not bearing
Interest

344. Receipts (15·62), less disbursements (9·56) result in a surplus of (6·06) chiefly due to other miscellaneous advances and Takavis.

Advances bearing In-
terest

345. The surplus is due to recovery of miscellaneous past advances.

Advances not bearing
Interest

346. The outgoings under this head have exceeded the incomings by 132·30 as at the close of the year there were remittances pending adjustment with the Sarf-i-Khas which were fully adjusted in the beginning of 1332 F.

Remittances

347. The excess is chiefly attributable to a cheque of 57·00 lakhs of the Sarf-i-Khas the payment of which was postponed till the beginning of 1332 F. On the other hand cheques of 1330 F. cashed in 1331 F. have brought down the difference to 37·43 lakhs.

Cheques not Cashed

348. The coins issued for circulation amounted to 19·56 lakhs, the coins withdrawn from circulation to 4·09 and the expenditure on purchase of bullion was 1·27.

Coinage and Currency

349. The closing balance for 1331 F. was estimated at 389·33 lakhs ; it is actually 443·62 or better by 54·29 lakhs. The improvement is due, in the first place, to the opening balance for 1331 F. having been better by 40·30 (521·29 against 480·99 lakhs). The surplus under service heads after meeting the extraordinary expenditure of 16·42 adds 27·26 lakhs to the estimated cash balance whilst the increase in the coins in circulation adds another 14·20 lakhs. These three factors make up a total improvement in the cash balance of 81·76 lakhs. Against this there are the extra Investments amounting to 5·84 and additional Capital expenditure 7·11, whilst the net result of the debt head transactions is a further drain of 14·52 lakhs on the cash balances. The sum total of these three factors on the other side is thus 27·47 lakhs which reduces the improvement in the cash balances from 81·76 to 54·29 lakhs and starts the year 1332 F. with an opening balance of 443·62 lakhs as against 389·33 lakhs with which the year was expected to close.

Cash Balance

The statement below exhibits in tabular form the effects on the cash balance of these different classes of receipts and disbursements :—

	Original estimate		Actuals		Difference	
	Receipts	Disbursements	Receipts	Disbursements	+ Better	— Worse
Opening balance ..	480·99	..	521·29	..	+ 40·80	..

356. Among the reforms effected in the department during the period 1321 F. to 1331 F., of which a report has been received from the Sadar-us-Sudur, may be mentioned the following :—

Reforms

The *Ahli Khidmat Sharia* (Religious office bearers) have been exempted from payment of nazranas for getting diplomas ; a new form has been proposed for “ Siahijat Nikah ” (marriage contract forms) and three copies of this form have to be made, of which one is to be kept in the Kazi’s Office, one in the Sadarat-ul-Aliya and one sent to the local court ; Kazis have been made responsible for maintaining a marriage register ; Nikahana (Kazi’s fee) was formerly Rs. 3-10-0 in the City and Rs. 1-4-0- in the Districts, but now one uniform rate has been fixed for the City as well as for Districts viz, Rs. 5 for each marriage, the Kazi’s and Deputy Kazis being authorised to accept even less amount from the poor ; arrangements have been made in the Nizamiah School to impart religious instruction to the children of “ Sajjadas ” and *Ahli Khidmat-Sharia*, and also for holding annual examination of *Ahli Khidmat Sharia* viz. Mullas, Mouzzans and Imams and Deputy Kazis : others are also allowed to appear for the examination on payment of fee viz. Re. 1 ; a note has been added to section 421 of the *Asafia* Penal Code with a view to put a stop to intermarriages among relatives strictly forbidden by Islam ; the period for which the wife of a

deserter-husband should await his return before performing a second "Nikah" has been fixed at 4 years and an explanatory note has been added to section 421 of the *Asafia* Penal Code to this effect; in order to prevent the performance of marriages without the permission of Kazis and Naib Kazis, the Talukdars of districts have been empowered to impose a fine amounting to ten times the "Nikahana" (Kazis' fee) on those who perform marriages without the permission of Kazis and Deputy Kazis. In the City these powers have been delegated to the Nazim of the Religious Department and the Sadar-us-Sudur has been authorised to hear appeals.

SECTION II. Civil Supplies

357. Nawab Mohiuddin Yar Jung Bahadur, Customs Commissioner, continued as Director of Civil Supplies to the end of Farwardi 1331 F. when the Department was abolished.

Control

358. During the year under report no fresh stock was purchased but attempts were made to dispose of the existing stock in the City of Hyderabad where the system of sale of cheap grain through Government Agency was continued as before. This system was abolished in the districts in favour of a system of sale through Local Non-Official Advisory Boards consisting of local merchants and pleaders and worked satisfactorily.

Work done in 1331 F.

359. This Department was established on the 13th Amardad 1327 F. and was closed on the 28th Farwardi 1331 F. i.e. it lasted for 3 years and 9 months. The total capital expenditure invested during this period amounted to Rs. 16,33,801 and of this amount Rs. 11,61,851 were refunded to Government, Rs. 3,69,360 were on account of loss incurred by the sale of cheap grain and Rs. 1,02,590 were spent on establishment and other administrative charges.

Closing of the Department

SECTION III. Electricity Department.

360. Mr. R. L. Gamlen continued as Director, Electricity Department, till the 11th Mehir 1331 F. when he proceeded on Government duty to England. For the rest of the year Mr. Browne, Assistant Director, acted as Director.

Control

361. As before, there were 8 main and feeder lines and 39 sub stations. 7,658 yards of underground cable costing Rs. 62,065 and over-head lines costing Rs. 21,402 were laid during the year.

Number of lines

Including Secunderabad, there were 2,466 consumers at the end of 1331 F. Forty five water pumps, 83 flour and rice mills, 3 X-Ray apparatus, 11 mortar mills, 2 Ice factories, one tile factory and 27 mortars for sundry works were worked by electricity.

362. The total capital expenditure incurred by the Department on plant and machinery to the end of 1331 F. was Rs. 34,50,735 and the profits for 1331 F. after deducting Rs. 1,05,000 for depreciation show a return of 4.5 per cent. on the capital outlay as against 3.1 in the preceding year.

Receipts and expenditure

SECTION IV. Workshop.

363. The total value of the work turned out during 1331 F., including supplies to Government departments in the State and to private bodies and the public, was Rs. 3,65,033 against Rs. 3,72,487 in the preceding year.

Work done during 1331 F.

- Cost** 364. The total cost of maintenance of the Workshop Department was Rs. 30,580 against Rs. 43,196 in the previous year.

SECTION V.

Nizamia Observatory.

- Control** 365. Mr. T. B. Bhaskaran, M.A., F.R.A.S., continued in charge of the Observatory during the year under report.

Work done 366. The extension of the survey to the Southern Section Decl. 23° was sanctioned by Government on the recommendation of the International Astronomical Union and a catalogue of guiding stars from Algiers and Cordoba catalogue was prepared for plates in this zone. Sixty five plates of zone 23° containing 39,774 star images were measured. Besides, 29 plates of zone 21° and the remaining 5 plates of zone 22° were taken and measured, reductions of about 135 plates of zone 21° were completed and tables for the calculation of the Standard Co-ordinates were computed during the year under report.

- Expenditure** 367. The cost of maintaining the Observatory was Rs. 51,169 in 1331 F. as against Rs. 28,220 in the previous year, the excess expenditure being due to the completion of the unfinished portion of the Telescope House and the installation of the Grubb Equatorial Telescope during the year.

SECTION VI.

The City Improvement Board.

- Control** 368. Mr. P. A. Bhowhani, B.A., A.C.E., was in charge of the City Improvement Board during the year under report.

Works 369. In the year under report, the southern embankment of the Musi river, the improvement of Sultan Shahi quarter, the widening of the Pathergatti road (experimental portion) and the Narayanguda corner, and the construction of a road from the Lingampalli bridge to the zenana platform were finished.

The following works were in progress :—

The construction of houses for poor people at Nampalli and Mussallam Jung Devdi, the improvement of the Akbarjah Bazaar, the Nampalli and Mussallam Jung quarters, and the construction of the Padshahi Ashurkhana road.

At the end of the year under report orders were passed for starting the Storm Water Drainage Scheme, the estimated cost being Rs. 10,00,000.

- Expenditure** 370. The total expenditure on works, including compensation of land acquired, amounted to Rs. 6,52,326 and on establishment Rs. 1,11,809.

SECTION VII.

Department of Statistics.

- Control** 371. Moulvi Muhammad Rahmatulla Sahib continued as Director of Statistics during the year under report.

872. Besides the Weakly Season and Crop Reports, Crop forecasts were prepared and published at regular intervals. **Work done** Statistics were also compiled and published regarding retail prices and imports of commodities into Hyderabad and Secunderabad and regarding Factories and Industrial establishments employing 20 or more labourers at a time and about Agriculture giving details of cultivated, uncultivated and forest areas, areas irrigated under Government and private sources, cattle and plough and the extent and assessment of cultivated lands. Statements in book form were also compiled of wheat, rice and jawar during the period 1800 to 1829 F. Statistics of deaths due to wild beasts which occurred between 1825 and 1830 F. were collected and published. Statistics of mines and output of minerals for the period 1910-1919 were compiled and those for 1920-21 were being collected during the year.

373. The total cost of the Department was Rs. 29,255 against Rs. 24,414 in 1830 F. **Expenditure**

SECTION VIII.

Development Department.

374. Under His Exalted Highness' Farman of the 1st Ramzan 1340 H. (25 Khurda 1331 F.) the Development Department **Origin and Scope** was constituted with a view to secure rapid and adequate development of the resources of the State in special reference to the undeveloped District of Adilabad, by providing immediate means of communication and proper housing accommodation and by constructing Irrigation works and Railways.

The scope and duties of the Department are :—

- (a) To add to the agricultural population of the State by inducing immigration both of foreign and local population into the District.
- (b) To secure the advantages of consolidated farms by grants of land to settlers in perpetuity, the minimum limit being 100 acres.
- (c) To increase the agricultural produce of the State by the utilisation of all culturable land in comparative disuse for agricultural purposes.

375. Since Thir 1331 F., much of the period covered by this report has been taken up in organising the Department, formulating a definite policy of colonisation in the Forest areas, drawing up a programme of communications, and making preliminary enquiries to enable conclusions to be arrived at on broad lines as to the best means of carrying out the work assigned. **Work done** A programme of communications in the Asifabad, Nizamabad, Karimnagar and Warangal districts comprising nearly 683 miles of ordinary road and 487 miles of Railways was drawn up. As the preliminary work of the Department was greatly hampered by the non-existence of large scale maps of the parts it had to deal with, enlarged maps of the Adilabad District and Forest Reserves of Kanad, Manchappa, Bhimgal and of other taluqs in Karimnagar and Warangal Districts were prepared to serve as a guide for settlement surveys, communications, and other projects, and a map of the Dominions, on a scale of 32 " per mile, was drawn up for distribution to applicants. Instead of laying Railways straight away in an undeveloped and sparsely populated district, resulting in considerable loss of income, roads will be constructed in accordance with Railway requirements so that when the country is sufficiently developed and the traffic returns justify railway construction it would only remain to lay rails on the roads and provide station buildings and yards.
